

HOLDERS Covered concrete assembly conductor bed holder

B931592

MATERIAL:

plastic/concrete

DESCRIPTION:

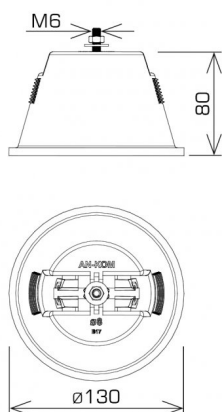

Concrete holder in plastic with a plastic base is used for mounting conductor trays on flat roofs. Made of polypropylene – PP (frost resistant) with additives protecting against UV radiation. The base of the bracket is made of ABS plastic which enables gluing the bracket to the roofing. The support is filled with a frost-resistant cement mortar.

PURPOSE: roofs covered with membrane or roofing felt

INSTALLATION:

- gluing to roofing felt – with adhesive mass, e.g. **N828540**
- gluing to the membrane type roofing – with the adhesive recommended by the membrane manufacturer or after agreement with the roofing manufacturer with the adhesive for PVC membranes with the symbol **N828576**

BOTTOM: plastic
