

Accessories roof adhesive mass

N828540

MATERIAL:

other

DESCRIPTION:

The adhesive mass is used for gluing plastic holders to roofing felt.

Substrate and ambient temperature during application and bonding: from +5°C to +25°C

Drying time: 24h

Method of application:

1. Thoroughly mix the content of the bucket.
2. Apply a small amount of glue to the holder with a spatula and the place where holder should be glued using the "glue to glue" method.
3. Wait 20 minutes.
4. Place the holder and press it against the roofing.

Properties:

- modified SBS,
- has excellent adhesive properties,
- has very good adhesion to the roofing felt,
- resistant to weather conditions, high and low temperatures,
- resistant to short and long-term aging,
- easy and quick to use

!!! CAUTION!!!

Do not use to cover PVC, EPDM membranes.
