

Accessories Sheet assembly adhesive

N828600

MATERIAL:

other

DESCRIPTION:

Used for mounting concrete holders in plastic, steel holders for sheet metal coverings, PVC, bitumen coatings as well as roofing tar and concrete.

Method of application:

Clean the substrate from impurities that reduce adhesion. The product is ready to use. Place the cartridge in the extrusion gun, cut the end of the cartridge by adjusting the opening to the width of the adhesive strip (5mm), screw on the applicator. Perform work at temperatures from 1 to 30 degrees. Apply the glue to the holder according to the scheme:

Properties:

- flexible,
- binds without shrinkage,
- without solvents,
- resistant to UV and other weather conditions,
- does not cause corrosion of galvanized sheets,
- no priming required
- excellent adhesion

symbol	N828600
type	AN-90W-10
capacity	290 ml
usage	up to 50 pcs. holder e.g. B931516
temperature of use	-40°C to +90°C
treatment time	5-10 minutes
material	other
